

Instructions

1. Print a copy of this brochure
2. Download the plant identifier to your phone for reference

<https://tinyurl.com/dtf963j5>

3. Choose your trail (or do both)
4. Walk slowly and pay attention to the plants you see
5. Mark off the relevant box when you spot and identify one of the plants (they are all verified in the location)
6. Add your own notes to your observations
7. (Optional: add your observations to the iNaturalist app)

A map of Maniitsoq showing all three trails. Lengths are shown as one-way distances

Museum Route = 0.4 km

Flower Valley Route = 2 km

The Museum route is accessible to most people. The Flower Valley trail is an easy hiking trail.
